March 10, 2017

Dear Louis,

Once again, it was an amazing experience to work with you - you are truly the consummate master of travel training!!!

The students haven't stopped talking about how much fun they had learning how to navigate the New Jersey Transit bus system as well as touring Port Authority's National Historic Landmark Building One.

They loved getting sprayed by the residual mist from the enormous firefighting rig and speaking with the rescue staff about airport operations, firefighting equipment and real-life rescue missions.

There were many teachable moments throughout the day that will resonate with our students for years to come. I've listed a few that they mentioned below: *Plan ahead (Trip Planner), use smartphone (NJT app), wear comfortable clothes/shoes, make sure you have exact change/bus pass, talk to bus driver before boarding, don't fall asleep & give up seat for older people).*

We deeply appreciate the opportunity of partnering with you & NJTIP @ Rutgers and look forward to future endeavors.

Thanks again for all that you do!!!!

Celia
