The Implications of “Back to Basics”

George D. Warrington

November 14, 2002, 5:30 PM

Special Events Forum, Civic Square Building

George D. Warrington

George D. Warrington is the Executive Director of the New Jersey Transit Corporation, the third largest transit agency in the nation. Appointed in April 2002, Mr. Warrington has launched efforts to address capacity, focus capital investment, secure adequate funding and improve customer service. Prior to joining NJ TRANSIT, Mr. Warrington was President and CEO of Amtrak. He led Amtrak to record growth, introduced a number of highly successful customer-focused efforts, and significantly increased revenue through passenger growth, expansion of mail and express services, commuter operations and other commercial enterprises. During the course of his 27 year career in transportation, Mr. Warrington has also served as the Executive Director and President of the Delaware River Port Authority and Port Authority Transit Corporation as well as Deputy Commissioner of the New Jersey Department of Transportation. From 1980 to 1990, he served in executive positions during the start-up phase of NJ TRANSIT.

A reception will follow the lecture. Please **RSVP** by **November 7th** to Claudia Danku by e-mail, cdanku@rci.rutgers.edu, or by phone, 732/932-6812, ext. 700.

The Edward J. Bloustein School of Planning and Public Policy

The Edward J. Bloustein School of Planning and Public Policy focuses Rutgers' educational and research programs that have established national and international reputations for excellence in urban planning, urban studies, public health, and public policy.

The Alan M. Voorhees Transportation Center

The Voorhees Transportation Center serves as both a forum and a catalyst for public policy in transportation. The center consists of the Voorhees Transportation Policy Institute, which conducts independent research on issues relevant to all transportation modes; and the nationally funded National Transit Institute, which designs and delivers training and education programs for the transit industry.
