To whom it may concern,

I am very grateful for the Travel training my daughter, Tara, received to travel on the NJ transit bus and learn to cross busy streets to her employment and home.

Her trainer, Miss McMillan was wonderful. She was very knowledgeable and exuberant and showed us how to navigate the NJ Transit site and use of the trip planner.

She was very patient and articulated how to use the bus routes and fares many times until Tara understood before they rode the bus.

Tara is quiet and dependent on me to drive her to work and social activities. The fact she will be able to ride the bus unassisted to work or school will give her confidence, decision-making, independence and life skills.

I have recommended NJTIPS to several parents with young adults with special needs.

Sincerely, Margaret Don
