Planning for Healthy, Just, Resilient, and CO2-Neutral Mobility in New Jersey

Project Update
February 2022

Existing Work Groups

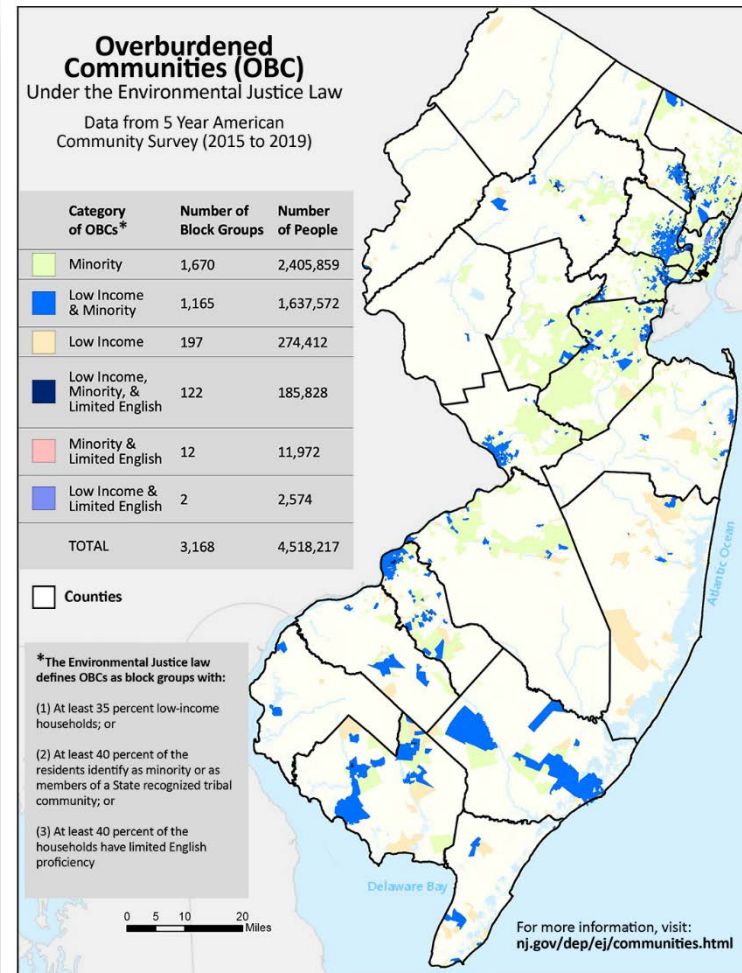

- Long-term Statewide Planning for Climate Change Workgroup
- Natural and Working Lands Workgroup
- Offshore Wind Ecological Monitoring Workgroup
- Public Health Workgroup
- Sustainable Organic Materials Management Workgroup

(NEW)

Transportation Workgroup

Changing policy dynamics at the State and national levels

New Jersey Emissions Targets

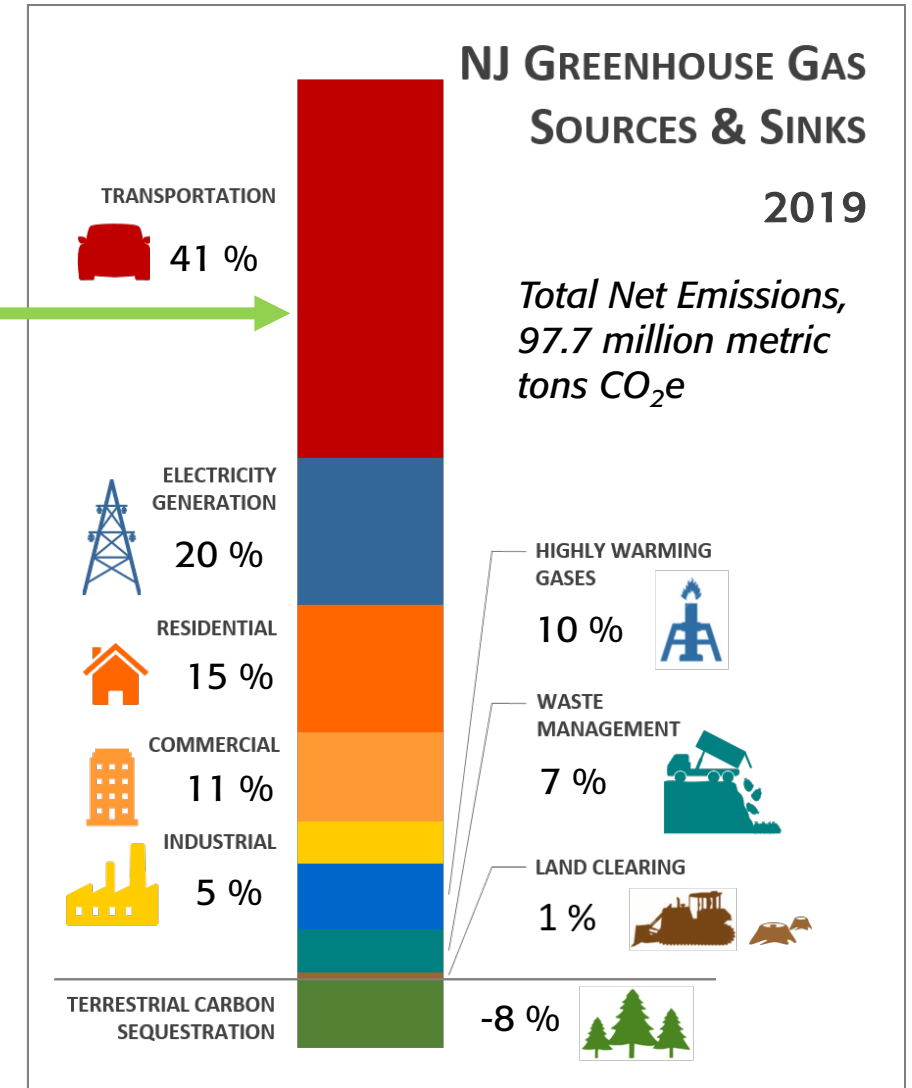

2020 Emissions Reduction Goal
(Equivalent to 1990 GHG Emissions)

GHG Emissions in New Jersey

Reductions in the transportation sector will be critical to achieving NJ's emissions target

Significant attention being paid to vehicle electrification

- Charging infrastructure investments
- Rebates and tax credits to encourage EV purchases
- EVs can use HOV lanes

This infographic compares emissions and space consumption for different transport modes. Source: Institute for Sensible Transport

What can the working group do?

Multi-Goal Framework

Healthy. Improve health outcomes for people and communities by improving air quality and making it easier and safer to walk and bike.

Just. Promote **equity** by making travel by transit more reliable and convenient and by enhancing access to opportunity for marginalized groups.

Efficient. Increase transportation system efficiency and effectiveness by integrating advanced and emerging transportation technologies and modes.

Resilient. Enhance the resilience of transportation systems by adapting infrastructure to climate hazards.

Carbon Neutral. Reduce energy use and emissions of all kinds by facilitating a transition to CO2-neutral transportation.

Toward a healthier, more equitable, and cleaner transport future in New Jersey

HEALTHY, JUST, RESILIENT, AND CO2-NEUTRAL MOBILITY FOR ALL

What is healthy mobility?

- Access
- Safety
- Physical activity
- Mental health
- Air quality
- Noise

What is equitable and just mobility?

An equitable and **just transportation system** provides safe and clean transportation options that are affordable, convenient, and easy to use.

Equitable mobility provides the same opportunity for everyone to move around reliably and sustainably in ways that meet their needs.

Graphic courtesy of Shared-Use Mobility Center

What is resilient mobility?

Robustness

Redundancy

Flexibility

Responsiveness

Coordination

What is carbon-neutral mobility?

Guiding concepts

- **Decarbonize** the transportation sector
- Empower people to **drive less**
- Create a network of **diverse and inclusive neighborhoods that** are well connected to each other
- Think of **mobility as a service** and **reimagine** public transportation
- Embrace **new technologies** but ensure they are affordable and accessible to all
- Make **social justice** a key indicator of transportation performance

Potential Organizing Framework

“15-minute” City/Neighborhood

Leading Practice Examples

- Singapore
- Paris
- Portland
- Melbourne
- Ottawa
- Barcelona

© Shutterstock, Getty | Aerial views of Glasgow, Paris and Melbourne

What is a “15-minute” city/neighborhood?

5 MINUTE WALK

(3 MPH AVG)

RADIUS - 1/4 MILE

ACRES - ~126

DWELLING UNITS - 1,000 @ 8/AC

POPULATION - 2,600 @ 2.6/UNIT

15 MINUTE WALK

(3 MPH AVG)

RADIUS - 3/4 MILE

ACRES - ~1,130

DWELLING UNITS - 9,040 @ 8/AC

POPULATION - 23,500 @ 2.6/UNIT

5 MINUTE BIKE

(12 MPH AVG)

RADIUS - 1 MILE

ACRES - ~2,010

DWELLING UNITS - 16,100 @ 8/AC

POPULATION - 41,860 @ 2.6/UNIT

5 MINUTE ELEC. VEHICLE

(20 MPH AVG)

RADIUS - 1 2/3 MILE

ACRES - ~5,580

DWELLING UNITS - 44,700 @ 8/AC

POPULATION - 116,200 @ 2.6/UNIT

15 MINUTE BIKE

(12 MPH AVG)

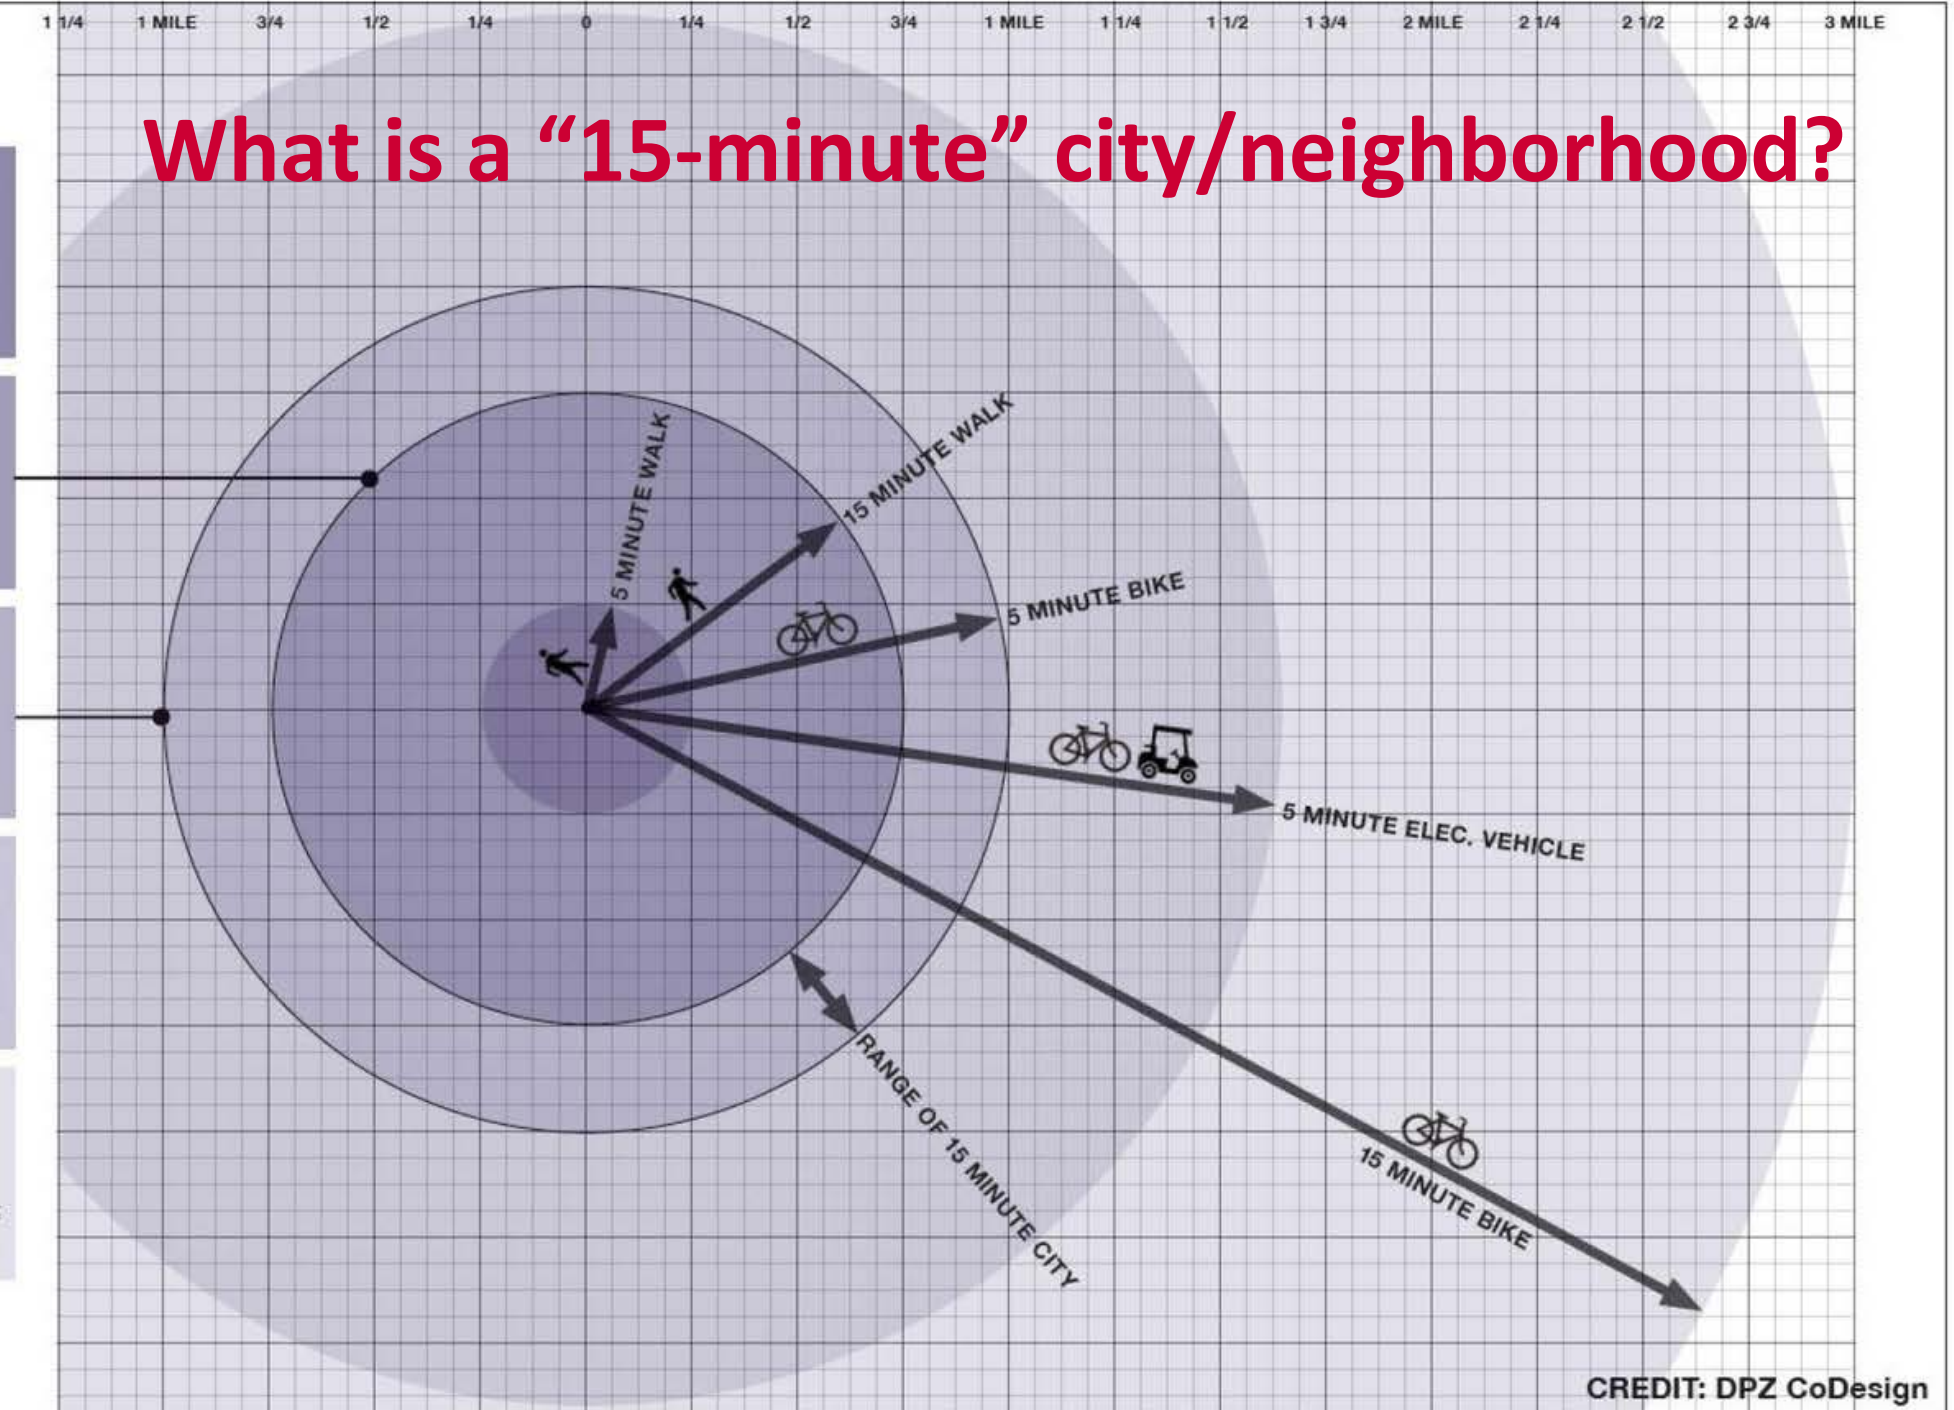

RADIUS - 3 MILE

ACRES - ~18,100

DWELLING UNITS - 144,800 @ 8/AC

POPULATION - 376,480 @ 2.6/UNIT

Work Plan

PHASE 1 – Exploring key concepts, desktop analysis, looking toward the future (Mar 2021 to Feb 2022)	<u>Activities:</u> <ul style="list-style-type: none">• Conduct leading practice research• Collect, analyze, and map data• Identify of potential community and equity partners• Convene “Thought Leaders” webinar and visioning workshops• Identify vision components• Select locations for neighborhood-scale analysis
PHASE 2 – Field work, community engagement, and developing recommendations (Mar 2022 to Sep 2022)	<u>Activities:</u> <ul style="list-style-type: none">• Conduct field visits and interviews to get to know the neighborhoods• Develop and implement community engagement plan• Identify local mobility and other community needs and concerns• Prepare concept plans for retrofitting existing neighborhoods• Identify infrastructure needs• Develop planning and policy recommendations• Prepare comprehensive final report• Convene “Thought Leaders” Forum #2 – How do we get there?

Phase 1 Case Study Locations

1. Atlantic
2. Camden
3. Cumberland
4. Essex
5. Hudson
6. Mercer
7. Middlesex
8. Warren
